

Agitators

ADVANTAGES

- Proven performance in solids suspension, blending and dispersion applications
- Heavy duty design for abrasive slurry applications
- Wide range of available sizes, suitable for projects ranging from mega-scale mining projects to pilot plants
- Bridge mounted agitator drives
- Heavy duty tanks available in bolted or welded construction
- Numerous impeller options available to suit application
- Custom materials and linings to handle corrosive or high abrasive products
- Individual bolted blades or complete prop units
- Dual or single prop options

BOLTED TANK

ADVANTAGES

- No site welding required
- Quick site assembly
- Logistically more flexible, tank pieces fit into standard shipping containers.

WELDED TANK

ADVANTAGES

- Depending on size: Tanks are fully welded before shipping, welded in sections, or field welded on-site
- Complete modular unit with ease of installation
- Least susceptible to leaks
