# WESTPRO YOUR PROCESS TECHNOLOGY PARTNER

## **Portable Hopper Feeders**

Westpro's line of portable process equipment is ideal for use in aggregate quarries, soil remediation projects and mining crushing systems. These self-contained units require no auxiliary equipment allowing for ease of operation in the field.

#### ADVANTAGES

- Quick set up
- Ease of use
- Low maintenance
- Radio controlled tilting Grizzly Bars
- Heavy duty carbon steel contraction
- Custom grizzly bar spacing
- Self-cleaning grizzly bar design
- · Hydraulic leveling legs
- Foldable discharge conveyor
- High impact wheel fenders

#### APPLICATIONS

- Tramp iron removal
- Metered feeding
- Aggregate processing
