COVID-19 - Westpro Update

Dear Valued Customers and Suppliers,

This is a very trying time for everyone. We are doing all we can to support our employees by providing a clean and safe workplace and having all office related functions operate remotely.

Our main goal is to do everything in our power to keep people safe and healthy. In doing such, our production facility and our suppliers are operating under new health protocols that follow Canada's workplace guidelines regarding COVID-19.

Working together with Customers and Suppliers, we must try and maintain a proper flow of production and delivery as much as we can under these current circumstances.

We will do our best in being understanding and compassionate on all fronts for our customers, suppliers and employees.

Please feel free to reach out to any of our employees as we continue to service all inquiries.

We wish everyone to have a safe and healthy day and for those that are suffering we wish for your speedy recovery.

Yours truly,

John Atkinson, President
