

Modular Lime Slaking System Successfully Delivered

CONTINUING SUCCESS: ANOTHER
GREAT PROJECT SHIPPED TO USA

EQUIPMENT WITH AN IMPRESSIVE CAPACITY

**WESTPRO LSS240-DT48-2 Lime
Slaking System, with a 240 metric
tonnes storage capacity,** stands as an
exceptional choice for projects
demanding both substantial capacity
and tailored solutions.

LARGE- SCALE SLAKER

We have the largest standard slaker size in the industry. For this project, we designed a two-cell slaker with a total capacity of **5000 KG/HR**.

Westpro designs, manufactures, and provides continued services for the largest standard slaker sizes in the industry.

SLAKER DT-48 with a capacity up to 6500 KG/HR

SLAKER TESTING IN SHOP

Westpro Slaker undergoes rigorous quality testing to ensure safe and efficient operation with a highly reactive final product.

"In this project, we closely collaborated with the client to fulfill their layout preferences and tailored our model to their specific requirements."
