

# WESTPRO

PROCESS TECHNOLOGY

WESTPRO'S COMMITMENT TO NORTH AMERICAN STANDARDS IN DESIGN AND FABRICATION

FLOTATION CELLS  
READY TO SHIP TO THE UNITED STATES

Puslinch Westpro team stand proud next to  
FL100 Flotation Machines

- ▶ EXCELLENT RECOVERY RATE OF MINERALS, RESULTING IN THE OPTIMIZATION OF RESOURCES.
- ▶ EXCELLENT PULP SUSPENSION AND GREATER BUBBLE GENERATION.
- ▶ BUILT TO WITHSTAND THE HARSHTEST ENVIRONMENTS WITHOUT DOWNTIME.

# CUSTOMIZED EQUIPMENT TO MEET THE CLIENT'S REQUIREMENTS

FL100 being tested in Westpro shop

## FL100 2+2 (4 CELLS)- Flotation Machines-2.8m (100ft) per cell

Has one drive motor and one inline helical reduction unit per tank for a single overflow configuration and solid shaft with split bearings for easy maintenance.

# AUTOMATIC LEVEL CONTROL SYSTEM

FL100 ready to ship

Precision flotation control: Float ball, ultrasonic sensor, and DCS integration ensure efficient slurry level management.

Flotation modular support frame the steel support frame for each machine provides tank support and allows for flush mounting of the complete tank.
